MARYVILLE CHAMBER OF COMMERCE

MUSICIANS TO GIVE PROGRAM IN ST. JOE

YOUNG MARYVILLE ARTISTS TO APPEAR AT CLUB LUNCHEON.

GRADUATE LAST NIGHT

Diplomas Presented Miss Hooker and Miss Farris by P. O. Landon, Former Director.

At the second of the series of commencement programs given by graduates of the Maryville Conservatory of Music last night the diplomas were presented by Prof. P. O. Landon of Carlinsville, Ill., former director of the conservatory, who came to Maryville for the event.

This commencement is the last one to be held from the conservatory under its present title, as its course of instruction will be merged into that of the State Teachers College after September 1.

The program last night was given by Miss Halcyon Hooker, piano, and Miss Orpha Farris, voice. Both are accomplished performers and their rendition of the numbers presented last night was remarkably fine, showing a perfection in technique and a beauty of interpretation rare in students as young as Miss Hooker and Miss Farris. Both have appeared at previous times before Maryville audiences and have won high praise. Miss Hooker is a daughter of Mr. and Mrs. H. T. Hooker of North Main street and Miss Farris is a resident of Clarksdale, Mo. They have been asked to give the program at the June monthly luncheon of the Federation of Women's Clubs in St. Joseph to be given at Community Hall on June 29. The June luncheon is to be given under the direction of the home economics department of the federation. The club women of this city have been extended an invitation, through the president of the Twentieth Century club, to attend any and all of these monthly luncheons given by the St. Joseph clubs and numbers have done so, enjoying both a profitable and pleasant time with the club women of that city. Mrs. A. E. Rush, chairman of the home economics department of the St. Joseph federation is now visiting in Maryville at the home of Mr. and Mrs. Hooker and has extended a personal invitation to the Maryville club women to attend the luncheon on June 29.

The final recital of the commencement series at the Conservatory will be given Monday night by Miss Ruth Jones, piano and Miss Virginia Lawson, voice. The Maryville conservatory was established in 1902 with Mr. Landon as director. He sold out his interests several years ago to Miss Berenice Rice, who has taken the director of the Oklahoma City Conservatory at Oklahoma City, Okla., since the Maryville organization has become affiliated with the College.

YOUNGEST GROWN-UP IN CITY WAS 80 YESTERDAY

Cooper Gooden Stepping a Little More Lively Today Getting Ready for the Next Celebration.

Cooper Gooden, the youngest grown up in the city, celebrated his eightieth birthday anniversary yesterday and his steps (if such could be possible) are a little more springy, and his smile a little more spreading over the big time that his friends all over the county made of the day. Consequently his appreciation of all these favors cannot be made individually to his friends and therefore through the Democrat-Forum, Mr. Gooden issues his thanks as follows:

We wish to thank our many friends who remembered us on our 80th birthday, Wednesday, June 9, 1920, with many good wishes and fine presents. We owe our good health and longevity by viewing the bright side of life. We do hope our friends will live long and prosper and view the silver lining of every dark cloud, and when the evening of life approaches, may they be surrounded by a glorious sunset, is my wish.

WAR IN G.O.P. RANKS IN THIS STATE

MISSOURI DELEGATION UPHOLDS THE SLUSH FUND.

SPENCER GIVEN A JOLT

His Manager Joins Demands for Clean Up. But the Senator Only Clings to the Fence.

Chicago, June 10. — The Missouri delegation to the Republican national convention last night, by a vote of 23½ to 11½, "vindicated" Jacob L. Babler in the Babler-Morse-Lowden fund scandal.

Arthur M. Hyde, candidate for governor, led the fight against Babler and "Liv" Morse. As a result open war has been declared by the Morse-Babler faction on Hyde, who was untouched by the slush fund revelations. The Dickey-Marks faction of Kansas City is arrayed on the Morse-Babler side.

The vote was taken after discussion was cut off almost by unanimous consent of both sides in the fight to oust the Missouri national committeeman.

Every delegate accused of sharing the $38,000 of the Lowden slush fund voted for Babler. The vote was announced as 24 to 11, but a mistake was made in the count.

Senator Selden P. Spencer refused to vote, saying that he could not do so because he is a member of the senate sub-committee now investigating Babler. Dr. J. R. A. Crossland, negro delegate-at-large from St. Joseph, was the only delegate not present or represented in the caucus.

The vote was on this resolution, offered by G. W. Wagner of Jefferson City:

"Be it resolved that we hereby rescind the action by which J. L. Babler was elected national committeeman for Missouri at the meeting of this delegation held at the Planters Hotel in St. Louis, Friday, May 28, 1920."

Before the meeting was held, Arch Hollenbeck of West Plains, Mo., campaign manager for Senator Spencer, came to the verge of an open break with the senator because the latter refused to promise to vote to oust Babler. His break with Spencer caused a sensation among the Missourians as well as among the delegates and G. O. P. leaders from other states.

The Babler row has developed two things: A split in the St. Louis Republican organization and bitter war by the state machine headed by Babler and Morse on Arthur Hyde's candidacy for governor.

Senator Spencer, who has attempted to mollify both sides, undoubtedly will be drawn into the fight on the Babler side. John Schmoll, St. Louis city chairman, Fred Essen, St. Louis county boss, Congressman L. C. Dyer and the Nat Golstein associates will be lined up behind Spencer and in support of Babler.

On the other side will be Edward Forstel, one of the "big four" leaders of St. Louis, a delegate at large; Col. Dwight F. Davis, candidate for senator, and J. L. Minnis, also candidate for senator.

Following the action of the caucus last night, Minnis issued a statement saying the issue of Bablerism is now up to the voters of Missouri in the August primaries.

"The party must be reorganized by substituting for those who have scandalized themselves Republicans who will act for and in the interest of the party. Political machines must go. They are not consistent with a free electorate."

Anti-Boss Move Gains.

St. Joseph, June 10.—Mayor Elliot Marshall of St. Joseph is enthusiastically supporting the movement started by W. C. Pierce and other Nodaway county Republicans to call a state-wide meeting of Republicans to steps to rid the party in Missouri of the domination of Jacob L. Babler, national committeeman, and W. L. Cole, state chairman, in a signed statement made public today. Mayor Marshall includes "Liv" Morse of Excelsior Springs and Thomas R. Marks of Kansas City in the list of undesirables.

"Party Must be Cleaned Up."

St. Louis, June 10.—The Globe-Democrat, this morning says editorially:

"The Republican party in Missouri is confronted by a serious situation. Certain leaders of its organization have been discredited by the revelations growing out of the investigation of expenditures in the presidential campaign. Can it retain and sustain those leaders and hope to carry the state in November? Can it retain them and preserve its self-respect? Can it retain them and expect, with any justification for the expectancy, to have the support of the people? Missouri is a close state, but the Democratic party is generally predominant.

"The Republican party succeeds only when public opinion is strongly in its favor. Any handicap, particularly one that may be looked upon as a moral handicap, would be very likely to insure defeat. The national conditions and popular feeling at this moment justify the belief that the Missouri Republicans have an opportunity that should not be lost. Events at Chicago and San Francisco, it is possible, may change the trend, but that is not probable, unless the gravest mistakes are made at Chicago and extraordinary wisdom is shown at San Francisco. But even with the advantage of existing tendencies the party can not expect success if it is discredited by the leaders of its organization.

"The great mass of the Republicans of Missouri would rather go down to defeat with a sure belief in the righteousness of their party than to win under a cloud of doubt. Both principle and expediency demand a reorganization of party leadership in Missouri."

BOOM FOR PERSHING LAUNCHED BY GOLTRA

The General Is Invited to Accompany The Missouri Delegation to San Francisco.

New York, June 10.—"Dark horse" boom for General Pership as the Democratic nominee for president was launched today. Edward Goltra, national Democratic committeeman from Missouri, fathered the movement, extending a personal invitation to the general to accompany the Missouri delegation to San Francisco.

Impetus was given the boom owing to Pershing's petition for retirement on the active list of the army.

Augustus Moore, play writer, it is said, is to place Pershing's name in nomination.

Secretary of State Colby will also be a passenger on the Missouri special.

Mrs. Dale Alderman and her mother, Mrs. S. C. Alden, went to St. Joseph this morning for a short visit before going to San Diego, Calif., to spend the summer with another daughter. Mr. Alderman went to San Diego several weeks ago.

Frances Richey of Barnard was looking after business matters in Maryville today.

COMPROMISE ON LEAGUE OF NATIONS

ELIMINATION OF ALL REFERENCE TO THE PEACE TREATY.

NIGHT SESSION TONIGHT

Committee Was to Submit Platform at 4 O'clock This Afternoon—Other Features of the Platform.

BULLETIN.

Chicago, June 10.—W. H. Hays and other leaders have arranged a tentative program for the convention this afternoon which calls for a forty minute session at 4 o'clock followed by adjournment until 9 o'clock tomorrow morning when the nominating speeches begin.

Chicago, June 10.—The convention was called to order at 11 o'clock. After a short session and when it was found out that the resolutions committee was not quite ready to report a recess was taken until 4 o'clock this afternoon.

The threatened fight on the League of Nations on the floor of the convention was blocked today by a compromise on the peace treaty plank reached between the "mild reservationists" and the "irrencilables."

The elimination of all reference to the ratification was forced, the platform being in absolute silence on that question.

This plank is expected to meet the speedy approval of the convention when the platform in which it is incorporated is submitted by the resolutions committee this afternoon.

Charles Warren, parliamentarian of the convention, announced there will be no nominating speeches until after the platform is adopted. The move to have nominating speeches taken up before the platform has been contemplated.

This morning's session lasted fifteen minutes. Senator McCormick of Illinois, one of the "irrencilables" to the peace treaty, brought the cheering news to the delegates that an agreement was reached between the battling forces at the Auditorium hotel and by 4 o'clock it is believed the resolutions committee will be able to place something before the convention on which it could act. He requested a recess. Shouts of disapproval came from the floor but realizing nothing could be done, the delegates sweltering in intense heat wended their way up town and thus ended the third session.

The convention will meet again at 4 o'clock. Early prospects are it will continue into a night session.

The Mexican plank which did not follow the Fall report was unanimously adopted by the "steering committee." The plank is against intervention and does not recognize the Huerta government. It has been expected the plank would contain a provision against recognizing any Mexican government which could not give satisfactory assurance of protection to foreigners.

Some of Proposed Planks in Platform.

The provisions of the proposed initial plank recited the Republican efforts to repeal war legislation and detailed legislation completed by congress, including reduction of requested appropriations, the railroad, shipping, and other acts.

Other planks tentatively agreed upon condemn the Wilson administration and charge that, due to mismanagement, the country has been found unprepared for peace, as it was for war. The fiscal policy is denounced as likely to lead to damaging infla-

Get an Emerson!

The Fan with the Oil-Tight Bearing

EMERSON A. C. Electric fans are different from all others in one important way—the dust-proof oil-tight bearing which retains all the oil, to be used over and over.

In an Emerson A. C. Fan no oil can possibly reach the blades, to be scattered over walls, ceiling or furnishings by their rapid revolutions. The bearing is sealed oil-tight—all oil kept in—by this unusual design. No other fan has this unique feature. No greasy oil cup to unscrew and fill! Only one place to put in oil—just raise the spring cap and insert the spout of the oil can.

The Emerson bearing uses all the oil—so that frequent oiling is not needed—the bearing does not run dry and will wear indefinitely—dust cannot get in to cut it away. One reason why Emersons are guaranteed five years—factory-to-you.

A. B. CRANE MAKES GOOD SALE ON LOAD STOCK.

A. B. Crane, stock farmer and feeder of Nodaway County, Mo., expressed satisfaction at the sale here today of a mixed load of cattle. Included in the shipment were a string of 700-lb. yearlings that brot $12.50 a cwt., while heavier yearlings sold at $13, and several cows in the lot were disposed of at $10.50 a cwt. "I guess after all, I did not do so bad," declared Mr. Crane. "I had on market here two weeks ago a car of hogs that brot more than they would today, and in sizing up the cattle trade then I could see no encouragement to ship. By waiting I hit a better market; all things considered I am very well pleased." Mr. Crane, who has lived on the same farm near Burlington Junction for the past 38 years, reports corn rather backward, altho the stand is good. Wheat is beginning to head, and while the acreage is not as large as a year ago, prospects for more grain are better. The first cutting of fine alfalfa is under way and a heavy yield of clover and timothy hay is coming on, while the bluegrass pastures are in excellent shape, he says.—St. Joseph Stockyards Journal.

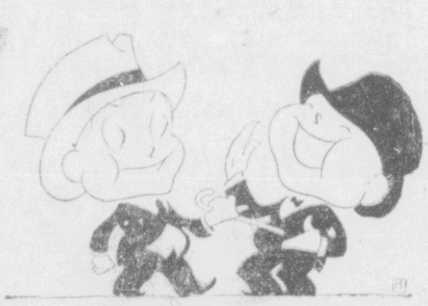
BILL TOLD me
HE HAD a good joke.
ON THE maker.
OF A well-known brand
OF CIGARETTES.
LAST NIGHT, Bill said,
HE READ an ad.
OF THIS cigarette.
IN A magazine.
IT SAID "They Satisfy."
AND THIS morning
IN HIS newspaper.
HE READ "They Satisfy."
AND ON a billboard.
AND ON a card
IN THE street-car.
AND IN the dealer's window.
AND ON the counter.
HE READ "They Satisfy."
AND HE bought a pack.
OF THESE cigarettes.
AND I asked him
"WHERE'S THE joke, Bill?"
AND BILL said
"WHY THE darn fools
SPENDING THEIR money
PICKING ON me."
SO I said, "You bought 'em.
DIDN'T THEY satisfy?"
AND BILL said "Sure.
BUT HERE'S the joke,
FOR OVER a year
I'D ALREADY been smoking
THAT BRAND."



WE admit it, the joke's on us. And over three million other smokers are "in on it" with Bill. But the real joke is on anybody who looks for "Satisfy" anywhere but in Chesterfields—for the Chesterfield blend *can't be copied!*

Soups From France.

Soups play an important and essential part in all the French peasant's meals. After his hard toil of the day, the "soup hour," as he calls it, is a welcome one ,for it not only means the hot, substantial dish, but it also means home and the fireside.

WATERCRESS SOUP.

Wash and pare four good sized potatoes and boil them until tender in six cupfuls of water to which one teaspoonful of salt has been added. Put the boiled potatoes, while hot, through a vegetable ricer or sieve. To this puree add the potato water, let come to a boil, and thicken sightly with one tablespoonful each of flour and butter cooked together. Add two cupfuls of watercress chopped fine, two teaspoonfuls of salt, and three-eighths teaspoonful of pepper. To measure the watercress, press it down into the cup and then chop. Serve hot with croutons. If a thinner soup is desired, add one cupful of hot water or milk, preferably milk.—May Good Housekeeping.

PAINS NEARLY DOUBLED ME UP

Nothing Helped Me Until I Took Lydia E. Pinkham's Vegetable Compound.

Wyandotte, Mich.—"For the last four years I have doctored off and on without help. I have had pains every month so bad that I would nearly double up. Sometimes I could not sweep a room without stopping to rest, and everything I ate upset my stomach. Three years ago I lost a child and suffered so badly that I was out of my head at times. My bowels did not move for days and I could not eat without suffering. The doctor could not help me and one day I told my husband that I could not stand the pain any longer and sent him to the drug-store to get me a bottle of Lydia E. Pinkham's Vegetable Compound and threw the doctor's medicine away. After taking three bottles of Vegetable Compound and using two bottles of Lydia E. Pinkham's Sanative Wash I could do my own housework. If it had not been for your medicine I don't know where I would be today and I am never without a bottle of it in the house. You may publish this if you like that it may help some other woman."—Mrs. MARY STENDER, 120 Orange St., Wyandotte, Mich.

POPCORN GROWING A GOOD SOURCE OF PROFIT

Missouri Farmer Sells $1600 Worth Off Forty Acres of Poor Burry Land.

Jefferson City, June 10. — Popcorn means a few short rows in the garden to most Missouri farmers, but it is a source of profit as well as pleasure when grown on a larger scale. L. Stephens of Rural Route 4, Polo, Mo., reports to the State Board of Agriculture his 1919 experience in growing popcorn for market, to excellent profit.

Mr. Stephens rented 40 acres of very poor and burry land three miles from his home, and paid $270 cash rent therefor. He drilled the "Queen's Golden" variety of popcorn, which is yellow in color and of large size. Although the land was very poor and exceedingly foul, and the season rather unfavorable, he sold from that 40 acres one thousand and six hundred dollars worth of popcorn. He is planting 20 acres this year on clean, fertile land. He finds that he can drill popcorn ever so much thicker than field corn, planting about 12 inches apart in the row and one stalk in a place.

The following are the general recommendations of the United States Department of Agriculture on popcorn:

Don't fail to include a little patch of popcorn in your garden—even if only a few hills or rows. Besides its use as a confection, popcorn possesses much food value.

On farms where it is not desired to grow popcorn as a market crop, a few rows are planted in the garden for home use. This usually interests the children and it is well to let them do the planting.

If it is desired to grow popcorn as a field crop, the surplus stock that is not wanted for home use can usually be sold to local merchants at a fair price, or a profitable local trade may be built up by supplying it direct to consumers.

Popcorn should be planted early so it will have a long season in which to mature. The planting may be done as soon as the soil is dry enough to cultivate, or when the oak trees begin to show their new leaves.

The soil should be plowed or spaded to a depth of 8 inches or more and the surface of the plat thoroughly pulverized before planting. The rows should be about 3 feet apart. A small furrow 2 or 3 inches deep is sufficient. The kernels should be dropped 8 or 10 inches apart in the row and covered to a depth of about one inch. The planting should be done before the moist soil in the furrow has had time to dry out.

Mrs. R. Snyder, 1008 East 3rd St., Maryville, says: "My kidneys bothered me for some time and I had a dull aching pain through by kidneys. I felt tired all the time and could not rest well at night. After using a few boxes of Doan's Kidney Pills the pains let up and the feeling of languor disappeared. My health improved generally." (Statement given October 2, 1912.)

On March 31, 1920, Mrs. Snyder said: "Doan's Kidney Pills have practically cured me of kidney trouble for since I used them eight years ago I have had no return of the complaint. I wish to confirm my former statement of 1912 as to the benefit obtained."

Chicago, June 10.—None of the "big three" are making any pronounced headway against the stone wall of the independent voting strength and it is confidently predicted they will make no headway until two ballots have gone into political history. Then, it is expected, the tide will begin to run in some direction.

Senator Johnson will probably be the first man nominated if the management decides to go ahead with the speeches today. Alabama, Arizona and Arkansas will all pass, having no candidate to offer. When California is called, Charles Wheeler of San Francisco will name Johnson. The states between California and Illinois on the list are expected to "pass" and when Illinois is called Congressman Rodenburg will present the name of Governor Lowden. Kansas comes soon after and Governor Allen will throw the name of Wood into the fight. Thus, unless surprises are sprung first, the three names offered will be those of Johnson, Lowden and Wood.

The convention program today called to order at 11 o'clock by Chairman Lodge. Prayer by Cardinal Gibbons. Report of the resolutions committee, if ready. If not, nominating speeches probably will be delivered. Possible a night session to dispose of the platform.

What is An Acre?

An acre of land contains 43,560 square feet, 160 square rods, or 4,840 square yards. The acre was the amount of an average day's plowing with a yoke of oxen, established in England in the days of King Edward the First. The acre is the same in America and England.

Missouri State Hospital No. 4 at Farmington has a prize cow bearing the beautiful and very much feminine name of "Pauline," a thoroughbred Holstein, producing 56 pounds or 7 gallons of milk daily. This state herd is one of the best groups of Holsteins in Missouri.

The Missouri State Board of Agriculture received a telegram the other day from the Ambassador of the Republic of Argentina asking for copies of the Board bulletin entitled "Rats and Rat Riddance." It evidently was an emergency call.

State Dairy Commissioner E. G. Bennett of Missouri seldom fails to make good use of every opportunity to boost the dairy business. His latest 'squib" is a reminder that Camel Hair brushes are now largely made from the soft, fine hair obtained from the inside of the cow's ears.
